**GALLERIA E SPAZIO
ESPOSITIVO INDIPENDENTE
PER L'ARTE CONTEMPORANEA**

INDIPENDENZA Studio nasce dalla volontà di creare uno scambio tra il pubblico italiano e alcuni artisti Internazionali invitati a presentare un progetto espositivo con la possibilità di risiedere e lavorare nell'appartamento annesso allo spazio espositivo. "Indipendenza" è la tensione che caratterizza questo nuovo progetto e la piazza che lo ospita nel cuore della storica zona di "Macao" a Roma, già nell'ottocento residenza e luogo di passaggio per generazioni di artisti.

"KARL HOLMQVIST and KLARA LIDEN" - LAVORO

The exhibition LAVORO has been purposely made to fit into the rooms of the turn of the century apartment in Rome where Indipendenza has its exhibition space. The title may refer to the artists having worked on-site to combine a selection of videos, prints, paintings, sculptures and wall texts.

Indipendenza is pleased to announce LAVORO, the exhibition of Karl Holmqvist and Klara Liden. The show has been purposely made to fit into the rooms of the turn of the century apartment in Rome where Indipendenza has its exhibition space.

The title may refer to the artists having worked on-site to combine a selection of videos, prints, paintings, sculptures and wall texts. There is a room-sized installation made from discarded cardboard in which is shown the video NHITE VOICE from 2015 where the two artists are seen attempting to do a synchronised set of dance moves as a comment on the terms of collaboration and the need for individual artistic expression.

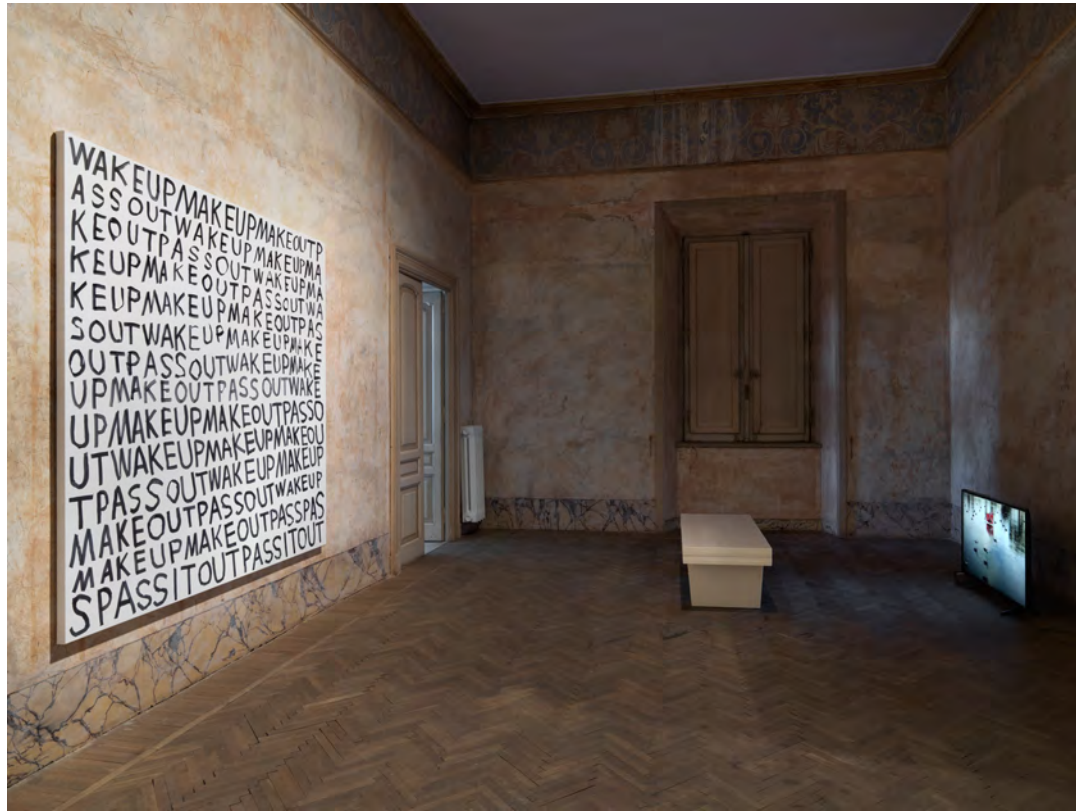

Other parts include a never-ending spoken word video and a hidden seating area for reading, or else a place where one can simply catch glimpses of Roman city life as seen through the open balcony door.
